

September 12, 2025: On whether or not I will continue

Yes, I will continue to speak up and speak out every single day about what I am witnessing. We are currently experiencing death threats in 'sign language' in front of our home right now thanks to the government of the United States of America.

As I have told others, the immediate turn that these forces took towards threatening to kill me was so alarming and so telling that I could immediately determine the nature of the Donald Trump operation.

In addition to immediate death threats, I am reporting the immediate use of attempted extortion to try to silence my political speech - inside of my own home.

These 'forces' attempted to immediately use threats of death and threats of law enforcement action against my life as an attempt to keep me from sharing this information with anyone at all - even my own family.

The change of tone from Trump's campaign messages from being helpful to harmful was so instantaneous and so dramatic that I was left with the immediate conclusion that the entire scenario was *a pre-arranged ordeal that was designed to 'capture' my voice* by posing first as an ally to lure me into their network and then as an enemy to threaten me into compliance with their criminal operation.

I am recording notes on this continuing private nuisance that my wife and I are both experiencing as Donald Trump's campaign moved from encouraging my participation in politics to forcefully threatening my silence inside of my own home.

I am publicly accusing Donald Trump of committing treason by waging a private war of threats against our home.

Donald Trump: I know that you read my messages and I want you to know how much my wife and I both hate you for what you have attempted to do in our home life. I am not 'full' of hatred like you appear to be, but I am specifically notifying you that your intensive efforts at ruining our life for your own financial and political gain are deserving of intense disgust and admonishment. I refuse to participate in your criminal schemes and I am firmly denouncing your operation with every bit of passion that I hold inside of my powerful mind and voice.

Donald, leave our home and life and move on. You will never control my voice, my mind, or my body. Your attempts at facilitating some form of criminal outburst from me is painfully transparent as entrapment by official oppression and you are deserving of prison for your efforts.

Leave our home, Donald Trump. You are not welcome here.
